

CHART OF SKIN DISEASES

AS TAUGHT IN THE

National Medical College, COLUMBIAN UNIVERSITY,

BY

H. C. YARROW, M. D.

PRIMARY CHANGES OF THE SKIN.

- Macules (stains)..... Discolorations of the skin.
Papules (pimples)..... Small solid elevations of the skin.
Tubercles (lumps)..... Solid elevations larger than papules.
Vesicles (blisters)..... Effusion of fluid between layers of the epidermis.
Bullæ (blebs)..... Large vesicles.
Pustules..... Elevations of epidermis by collection of pus beneath it.
Scales..... Detached epidermic cells.

SECONDARY CHANGES.

- Fissures..... Linear wounds, resulting from muscular action on inflamed surfaces.
Ulcers..... Suppurating sores extending to various depths.
Crusts or Scabs..... Dried material, composed of products of diseased skin.
Excoriations..... Losses of tissue from the superficial layers of the skin.
Abscesses..... Circumscribed cavities containing pus.
Granulations..... Red fleshy growths, the product of inflammation.
Cicatrices or Scars..... New formation of connective tissue, supplying the place of lost material.
Pigmentation..... Changes of color from the natural condition of the skin.

CLASSIFICATION OF DISEASES OF THE SKIN

(AFTER DUHRING.)

CLASS I.

DISORDERS OF SECRETION.

Seborrhœa.....	}	Sebaceous Glands.
Comedo.....		
Millium		
Sebaceous cyst.....		
Hyperidrosis.....	}	Sudoriparous or Sweat Glands.
Anidrosis		
Bromidrosis		
Chromidrosis.....		
Sudamina.....		

CLASS II.

HYPERÆMIAS.

Erythema simplex	}	Erythematous.
Erythema intertrigo.....		

CLASS III.

INFLAMMATIONS.

Erythema multiforme	}	Erythematous.
Erythema nodosum		
Urticaria.....		
Eczema.....		Erythematous, Vesicular, Pustular, Papular, Squamous.
Herpes	}	Vesicular.
Herpes zoster.		
Herpes iris.....		
Miliaria		
Pemphigus.....		Bullous.
Lichen ruber.....	}	Papular.
Prurigo.....		
Lichen scrofulosus.....		

Acne.....	}	Pustular.
Acne rosacea.....		
Sycosis non-parasitica.....		
Impetigo		
Impetigo contagiosa.....		
Ecthyma.....	}	Squamous.
Psoriasis.....		
Pityriasis rubra.....		
Furunculus.....	}	Phlegmonous.
Anthrax		
Dermatitis		Erythematous, Vesicular, Bullous, etc.

CLASS IV.

HEMORRHAGES.

Purpura.....	Corium, etc.
--------------	--------------

CLASS V.

HYPERTROPHIES.

Lentigo 'freckles'.....	}	Pigment.
Chloasma (patches		
Nævus pigmentosus (pigmentary moles).....		
Molluscum epitheliale.....		
Callositas	}	Epidermis, Papillæ.
Clavus (corns).....		
Cornu cutaneum (horns)....		
Verrucæ warts).....		
Ichthyosis (fish skin).....		
Keratosis pilaris	}	Corium.
Scleroderma.....		
Morphœa.....		
Sclerema neonatorum.....		
Elephantiasis arabum		
Dermatolysis.....		
Hypertrophy of the hair...	Hair.	
Hypertrophy of the nail...	Nail.	

CLASS VI.

ATROPHIES.

Albinism (want of pigment).....	}	Pigment.
Vitiligo (white patches)....		
Canities (whiteness of hair)		

Atrophia cutis.....	} Corium.
Atrophia senilis.....	
Striæ and maculæ atrophicæ.....	
Alopecia.....	
Alopecia areata.....	
Atrophy of the hair.....	} Nail.
Atrophy of the nail.....	

CLASS VII.

NEOPLASMATA—NEW GROWTHS.

Keloid	} Connective tissue.
Molluscum fibrosum	
Xanthoma	
Rhinoscleroma.....	} Cellular.
Lupus erythematosus.....	
Lupus vulgaris.....	
Scrofuloderma.....	
Lepros.....	
Syphiloderma.....	
Carcinoma	}
Sarcoma	
Nævus vasculosus.....	} Blood-vessels.
Telangiectasis.....	
Lymphangioma.....	Lymphatics.
Neuroma	Nerves.

CLASS VIII.

NEUROSES.

Hyperæsthesia.....	} Hyperæsthesia.
Dermatalgia	
Pruritus.....	
Anæsthesia.....	Anæsthesia.

CLASS IX.

PARASITES.

Tinea favosa.....	} Vegetable.
Tinea trichophytina.....	
Tinea versicolor.....	} Animal.
Scabies.....	
Pediculosis capitis.....	
Pediculosis corporis.....	
Pediculosis pubis.....
